

# ANNOUNCEMENT

## PLEASE PLAN TO ATTEND

Wednesday April 16<sup>th</sup>, 2008

7:30 p.m.

Our Lady of Mount Carmel School  
1624 Centre Road

**OUR NUMBERS  
OUR VOICES  
= **OUR POWER!****

St Marys is finally holding a public meeting to talk about our drinking water. As you know, they have applied for approval to the Ontario Ministry of the Environment (MOE) for a permit to test their theoretical and unproven mitigation plan.

### **NO PERMIT TO TAKE WATER HAS BEEN APPROVED**

This meeting is for information and consultation. I met with the MOE staff on March 10 and demanded a proper public meeting with presentations and a question and answer period, not just open houses at St Marys Carriage House on the 11<sup>th</sup> Concession East. My letter to MOE staff is available on my website.

St Marys wants access to your residential well for monitoring.

### **DO NOT AGREE TO THIS**

Please plan to attend this meeting. Lend your support to the growing number of voices that confirm what our community has known all along – this is not the location for a quarry and it could harm our drinking water.

**IT'S OUR WATER!**
